

Solulink Introduces New Distributor for South Korea, LK Bioscience

San Diego, California —January, 2010 – Solulink is proud to announce a new distribution partner in South Korea, LK Bioscience www.lkbio.co.kr. LK Bioscience works with several companies in the in the life sciences including those providing antibodies, antibody related products and related instrumentation. We are looking forward to an exciting future with this new relationship.

LK Bioscience will now carry the full line of Solulink products giving customers in South Korea an easier and faster way to purchase our products including the popular ChromaLink™ Biotin, All-in-One Antibody Labeling Kits, and our new Antibody-Oligonucleotide All-in-One Conjugation Kit. **ChromaLink Biotin™** is an easy-to-use, flexible way to biotinylate with real time quantification – no HABA assay needed. The **All-in-One Antibody Labeling Kits** for HRP, PE, AP, and APC conjugation include everything to efficiently label and purify your antibody without chromatography. The **Antibody-Oligonucleotide All-in-One Conjugation Kit**, is the first kit to allow users to prepare pure antibody-oligonucleotide conjugates *without* chromatography, for highly specific and sensitive assays.

About Solulink

Solulink is the leader in the development of novel yet easy to use conjugation reagents, available as complete linking kits or as individual reagents in a scalable format and a provider of conjugation services for all applications in the life science research, diagnostics, and pharmaceutical communities. These proprietary products and services provide unique features and benefits used to link antibodies, oligonucleotides, peptides, and proteins to each other or to a wide range of surfaces including beads, chips and slides. Solulink markets its products both directly and through distributors and licensing

partners world-wide. Solulink is a privately held company located in San Diego, California. For more information, please visit www.solulink.com.
